

## Understanding the Adverse Effect Wage Rate (AEWR) and How the AEWR is Calculated

GAP Connections (GAPC) will be hosting a Labor Management Webinar on Wednesday, August 28, 2024, 11 a.m.—12:30 p.m. (EST)/ 10 —11:30 a.m. (CST).

The Labor Management Webinar will focus on the USDA-NASS Farm Labor Program, which is the survey and estimation program currently used by DOL-ETA to set the AEWR (Adverse Effect Wage Rate). The webinar will include a discussion of the background behind the AEWR, the purpose and importance of completing the USDA-NASS Agricultural (Farm) Labor Survey, and the calculation of the specific USDA-NASS Farm Labor statistic currently used for the AEWR.

This webinar is open to all employers who are interested in learning more about the Agricultural (Farm) Labor Survey and its use in calculating the AEWR.

Farm Labor specialists from the USDA-NASS Statistics Division, Environmental and Demographics Branch will speak during the webinar.

*GAPC Grower Members will earn 1 hour of Additional Labor Management Training for participating*

Registration is required in order to receive the webinar link
